

Training tomorrow's
pilots today

CTC WINGS

iCP Integrated
Commercial
Pilot programme

CTC WINGS
MAKE YOUR CAREER FLY

CTC Wings *i*CP

What is the CTC Wings Integrated Commercial Pilot programme?

If you want to become a commercial pilot and have little or no previous flying experience, CTC Wings *i*CP offers probably the best value opportunity you will ever have.

CTC Wings *i*CP is a self-funded Integrated Commercial Pilot programme designed to enable more aspiring pilots to benefit from the high standard and enviable reputation of our CTC Wings training.

What do we mean by 'integrated'? There are essentially two options to choose from to gain a Commercial Pilot's Licence – either Integrated or Modular. The modular option involves completing the training in blocks that can be spread over as long or short a period as you choose, and may involve completing different modules with different training providers. The Integrated option incorporates the

theoretical and practical training and testing in one continuous course. Integrated training is intensive, but consistent and completed within a realistic time frame. Integrated training programmes are generally considered to be the preferred training approach by potential employers.

The programme is designed to meet the needs of individuals who wish to train and qualify as professional airline pilots, as well as those people who want to undergo JAA integrated CPL/IR training for other reasons. Whatever your personal goal, CTC Wings *i*CP will provide you with an enviable start in the industry. Your CV will always stand out with a CTC training record behind you.

CTC Wings *i*CP – *THE Integrated Commercial Pilot training programme.*

Crew Training Centre – Hamilton, NZ

CTC Wings *i*CP

Why should I choose CTC Wings *i*CP?

Your CTC Wings *i*CP training is unique in many ways -

- Training is provided by one of the world's leading airline training providers - CTC Aviation
- Our training team and resources are amongst the best in the industry worldwide
- Accommodation throughout the course is included
- You are introduced to applied instrument flying much earlier than more traditional programmes and receive considerably more Instrument Flight Rules training (IFR)
- On our *i*CP course, your conversion to multi-engine (ME) aircraft training takes place earlier than usual and the total ME time is significantly higher than most approved programmes
- You do not need to have the right to live and work in the EU to train with CTC Wings *i*CP
- Applicants are provided with the opportunity to make an informed decision on whether or not to commit to the programme as a result of the feedback they receive during the assessment process
- On completion of training, CTC Wings *i*CP pilots are free to follow their own career path as they choose... however...

If your dream is to become an airline pilot, you will be in a prime position to be considered for training and placement with CTC Wings ATP subject to availability and your performance during training (further details on our website www.ctcwings.co.uk)

CTC Wings *i*CP offers probably the best value opportunity you will ever have to take you to the brink of realising your dreams

Tell me more about
the training...

Training

Your training, which will take approximately 14 months, takes place at our state-of-the-art Crew Training Centres in Hamilton, New Zealand (NZ) and Bournemouth, United Kingdom. Satisfactory completion will result in you achieving your JAA (frozen) ATPL (Airline Transport Pilot Licence) and JAA CPL/IR (Commercial Pilot Licence and Instrument Rating). With these licences in your hand, you will then be ready to follow your chosen career path in the industry.

The first 12 months of your training will be carried out in New Zealand and you will be accommodated at our purpose-built accommodation complex "Clearways," just a few minutes from our Crew Training Centre at Hamilton International Airport. During this time you will return to the UK to sit your ATPL theoretical knowledge exams and enjoy some leave. The remainder of your training will take place at our Crew Training Centre in Bournemouth (where accommodation is also provided) and will be carried out on our fleet of state-of-the-art DA42 Diamond Twinstars.

Having completed the CTC Wings *i*CP training, you then have the option to apply for the CTC Wings ATP route for licensed pilots. With one of the most successful track records in the business for placing pilots with the airlines, CTC Wings ATP places are highly sought after... our *i*CP pilots will be in a prime position to enjoy the same employment opportunities.

I'm interested... what do I do next?

Register your interest

If you think CTC Wings *i*CP could be for you, visit our website www.ctcwings.co.uk and complete the online application process. Subject to meeting the entry criteria, you will be invited to attend an assessment day. This will enable you to make an informed decision about whether you wish to commit to the programme.

To qualify you should:

- be fluent in English (verbal and written)
- produce a CRC (Criminal Record Check) basic disclosure certificate before training can commence
- be able to pass a UK CAA Class 1 medical examination prior to commencement of training (Class 1 medical certificates issued by a JAA member state may qualify – please refer to the CAA website)
- satisfy any immigration requirements for residential flight training in New Zealand and the United Kingdom.

Assessment

This will normally involve one visit to our selection centre at our Crew Training Centre – Bournemouth. Our website will advise you of the current charges involved in attending assessment. Your day will begin with a presentation about CTC Wings *i*CP and provide you with an opportunity to ask any questions you may still have. The assessment includes aptitude and numeracy tests as well as some group exercises. The final stage of your day with us will involve an honest, constructive feedback discussion on how you have performed during assessment, enabling you to make an informed decision about whether CTC Wings *i*CP is the right route for you. If you decide it is, we will then arrange a departure date with you for you to fly out to New Zealand and start your training.

Finance

The current cost of the CTC Wings *i*CP course can be found on our website, together with further details on the training and answers to some of the frequently asked questions. Training to become a commercial pilot is not a cheap exercise, however, to help you budget we have included as much as we can in the headline price. The list below will give you an idea of what you need to plan for, but please always check the website for updates...

What's included?

- flights to and from NZ
- self-catering accommodation during training
- uniforms
- ground training
- flight training
- training materials
- JAA theory exam fees
- Licence Skills Test fees
- airport transfers in NZ
- shared use of transport in NZ

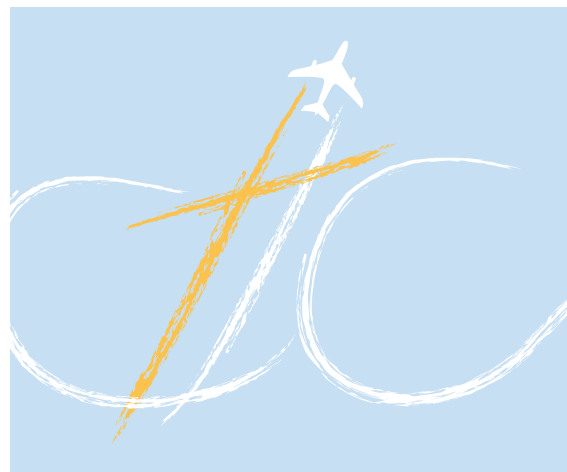

What's not included?

- food and living costs
- fuel for NZ vehicles
- remedial training and re-test fees
- insurances, medicals and visas
- CAA licensing fee
- CRC checks

Dreaming of a career
as an airline pilot?

CTC WINGS
MAKE YOUR CAREER FLY

...CTC WINGS *i*CP... CTC WINGS Cadet... CTC WINGS ATP...

If a career in the air is your dream, we can help 'make your career fly'. CTC Wings is a comprehensive programme of developmental training for pilots. CTC Wings *i*CP is just one route into our programme and provides successful trainees with the option of applying to CTC Wings ATP on completion of their JAA CPL/IR and ATPL training.

If your goal is to become an airline pilot, CTC Wings Cadet or CTC Wings ATP are two of the preferred routes into the industry for low experience pilots. CTC Wings *i*CP provides a flexible option for even more aspiring pilots to achieve their dream.

CTC Wings pilots are the cream of the crop and all of our graduates are normally offered the opportunity of full-time employment with our partner airlines.

*If you have little or no previous flying experience, CTC Wings Cadet and CTC Wings *i*CP are both options for you -*

CTC Wings Cadet - a fully sponsored programme with a rigorous selection process. The cadet route

takes you from no/low experience through Basic and Intermediate training (including MCC - Multi Crew Co-operation) and completes with Advanced airline type rating training in conjunction with one of our partner airlines.

CTC Wings *i*CP - a self-sponsored route to achieving JAA CPL/IR and frozen ATPL, having received world class training at our Crew Training Centres using state-of-the-art modern aircraft and technology.

If you are a licensed pilot already holding a JAA CPL/IR and with JAR FCL ATPL theory credit (frozen ATPL), CTC Wings ATP could be for you -

CTC Wings ATP - designed to assist talented but inexperienced, non jet-rated pilots to advance their careers. CTC Wings ATP gives these pilots an unequalled opportunity to gain a type-rating and experience on an advanced commercial jet, as well as a unique chance to promote themselves to a future employer.

To apply or to obtain further details on all routes into CTC Wings, visit our website www.ctcwings.co.uk

About CTC Aviation Group plc

CTC Aviation Group plc is one of the world's leading airline training and management providers. Established in the early 1990s, we offer a comprehensive range of training and consultancy services that can be tailored to individual airline requirements. Our portfolio includes courses for pilots and cabin crew at every stage of their career (including CTC Wings). In addition, we provide Train the Trainer courses and Crew Resource Management training. Consultancy services include crew selection, training staff assessments, line support, recurrent training provision, fleet introductions and full management and operational support for start-ups. We are "committed to excellence", providing only the very best training facilities at our state-of-the-art Crew Training Centres in the United Kingdom and New Zealand, and employing only world-class training staff.
